

Corn

181-11VT2PRIB Brand Blend

Relative Maturity: 81

- Excellent yield performance potential for its RM
- Widely adapted west to east in the 80 RM zones
- Excellent seedling vigor makes it a great choice for early planting in the north
- It has some ear flex so populations are best kept to medium to medium high. It responds to high yielding environments but it is also adapted medium to lower yielding fields

Management

Corn on corn

Soil

Fine texture soils

Coarse texture soils

Planting Recommendation

100 - 120 bu/a	27-29
140 - 180 bu/a	30-32
200 - 240 bu/a	33-35
